 - Reduction of cutting oil consumption (with our SERMALUBE system)

« MORE » to expect from SERMAS :

- Dedicated spare parts inventory
- Services centers around the world
- Specific blades developed for your applications and your saws
- A dedicated support team 24/7

NEW RANGE «ESSENTIEL» sermas

SERMAS is the world reference in Aluminium high speed sawing. From more than 40 years, the SERMAS saws are designed and assembled in France, by the art rule to guarantee a steady performance along the years and an incredible lifetime.

The « ESSENTIAL » range is the perfect solution between our PREMIUM custom design installations and the standard saws you can find on the market, which are often not really suitable for aluminum applications.

» The BS SERIE

The BS SERIE from our ESSENTIAL range exists in 4 models of billet saw to cover all of your needs in terms of products dimensions and production capacity.

Many options are available to customize your sawing equipment depending on your customers needs.

TYPICAL SPECIFICATIONS

BS-ESerie	Product Type	Cutting Capacity (mm)	Mobil Clamp Stroke (mm)	Blade Motor Power (kW)	Cutting Speed (m/min)	Blade Dimension	Blade Type	Footprint (mm)	Weight (kg)
